Losing The Road

May not be a matter of serious moment to a man, as it can be found again, but losing your eyesight or having it impaired is a fatality that everyone dreads. You can't lose the road to Wendel's even if your eyesight is impaired, and we would advise everyone whose vision is defective to visit us as soon as possible, as neglect of the eye and its need will make the defect more pronounced. We will examine your eyes free and fit them with perfectly adjusted glasses.

Captain Hobson, Hero of the Merimac, Tells of Traditions of the American Navy.

HELD 4,000 PEOPLE SPELLBOUND.

Assembly Audience Was Delighted With His Lecture—Dramatic Recital in the Evening—Assembly News.

Quite a fair sized audience attended the afternoon session of the Chautauqua yesterday. Miss Pace sang a solo and responded to an encore. Last evening was her last appearance here this year. Dr. Dornblaser then introduced Captain Hobson as a perfect type of Southern manhood and American ingenuity. The Captain said gen-

Races Started This Afternoon—Rain Made Track Heavy.

Special to THE TELEGRAPH: BLUE ISLAND, Aug. 5, 2 p. m.—Blue Island presents a gala appearance today despite the rain of last night and the Dixon running team is in high spirits. The only man in danger of being left is George Coakley, who discovered this morning that both his running shoes were left. He telephoned to Chief Detrick and is expecting the missing foot gear by express. It rained all night and the track is

Mrs. Phoebe Ann Rouse Cook.

Mrs. Phoebe Ann Rouse Cook of Amboy, whose portrait we give above has entered upon the second century of her life, having celebrated in a quiet way her one hundredth birthday at the home of her great-granddaughter last Sunday. Her relatives and a number of the neighbors called to congratulate the old lady on having attained a full century of life; but no great display was made. Mrs. Cook was born in Lanesborough, Pa., August 3, 1802. She was married in 1823 to Daniel Cook. They came to Illinois in 1845, settling in Sublette, Lee county, where Mr. Cook died in 1882. Mrs. Cook has resided with her great-granddaughter, Mrs. E. A. Purdy, since 1899. Mrs. Cook is the mother of four children, two of whom are now living, their ages being 75 and 78 years. Samuel Cook, now living at Columbus, Kas., was a soldier in the Mexican war, and J. J. Cook of Council Bluffs, Ia., served in the War of the Rebellion. Mrs. Cook enjoys good health and is able to dress and take care of herself. She reads without glasses, her memory is clear, and she can recall many of the historical events of the last century. In her home there are living four generations of the Cook family.

erally speaking of our country that we are a inland people. Speaking of the navy he stated that our people do not generally appreciate the good that it has done. He reviewed briefly the work of the navy from the Revolutionary war to the present. He said it was not generally known that in the war of 1812 our navy captured more than 800 ships and 12,000 men. More men than were included in the surrenders of Burgoyne and Cornwallis. It was our navy chiefly that stamped out the dreadful scourge of Barbary pirates. With much feeling he related the exploit of the sainted Sommers in the harbor of Tripoli, when he with his own hand applied the torch that exploded 100 barrels of gunpowder, under the Tripolian defenses.

American captains in times of peace have demanded the utmost respect and have secured it for the rights of American citizens and the American flag. All other navies have at some time or other acknowledged defeat. 'Tis our navy alone that has never tasted defeat. John Paul Jones when he lashed his vessel to the Serapis and went on board, set the pace the standard for the world in dual fighting upon the sea. At the breaking out of the Spanish-American War, there were more than 200,000 Spanish troops heavily entrenched in Cuba. President McKinley called out a quarter of a million of men intending that the war should be waged on land. The navy was to be used sub-sidiarily to transport these troops. You well know the war was ended by the navy in the magnificent victories of Manila Bay and Santiago Harbor.

Captain Hobson then spoke of our ex-

in bad shape, but the boys are out on it and the races are now in progress.

There is a big attendance of teams and spectators. The Gibson City, Naperville, Arcola, Highland Park, Evanston, LaGrange, Morgan Park, Harvey, Fort Sheridan, Warren and Riverdale have been on the ground from several days to two weeks training.

A long parade was given this morning by Chief Musham of Chicago in his automobile. Electric lights have been strung around Calumet Park and it will present a pretty sight tonight.

There are some great sprinters in the 100-yard dash now on. This will be followed by a ladder climbing contest, a novelty hose race, a novelty hook and ladder race (Dixon team entered), hose race for new teams, novelty hub and hub hose race, novelty hub and hub hook and ladder race (Dixon team entered), hub and hub hose race for new teams, hub and hub hook and ladder race for new teams, platform hose race, hook and ladder platform race. In the evening there will be a dance and exhibition of fireworks. FRANCIS COFFEY.

—Harry Fritz is enjoying a month's vacation from his duties with the American Express Co., and this morning went to Blue Island to attend the tournament. Elmer Clingan is taking his place.

streets that a three ring circus is not in it when a drove of Elks are turned loose. District Deputy D. J. Tutill was present from Rockford to assist and also C. H. Charles of New York, who has the distinction of belonging to lodge No. 1, the original organization. A number of officials from lodges in this vicinity were present.

At midnight an elegant banquet was served at the European Hotel, the hard labor preceding it rendering it doubly enjoyable to the Elks. Attorney Clyde Smith acted as toastmaster in his usual genial manner and a number of excellent speeches were made. After the banquet an hour was spent at the hall in conversation and the evening's fun came to an end. Up River Excursion.

A number of the Elks, with the visitors as their guests, enjoyed a launch ride up the river this afternoon.

Sentenced to Jail.

Justice Bartlett today sentenced Alfred Pearson to 30 days in jail for vagrancy.

In the same court Frank Waterbury paid a \$10 fine and costs for a drunk and disorderly.

Blue Island Tournament.

Twenty-five more persons have since yesterday morning purchased round trip tickets to Chicago and Blue Island.

**A WORD TO THE GREAT ARMY
OF SUMMER TOILERS**

If You are Not as Robust, Vigor-
ous and Happy as Others in
the Month of August

**Paine's Celery
Compound**

Will Give You Health, Full
Energy and Happiness.

Many men toiling in offices, stores
and workshops during this hot sum-
mer weather, and women weighted
with the work and cares of home, are
critically near the breaking down
point. The symptoms of coming sick-
ness and disease are manifested in
sleeplessness, nervousness, tired feel-
ings, languidness, irritability, failing
appetite, and poor blood circulation.

Paine's Celery Compound is a pre-
cious boon to the ailing, sick, and
rundown in this August weather. A
bottle or two used at once will quickly
bestow the needed strength to battle
against the weakening and enervating
effects of the oppressive heat, and will
enable men and women to go through
the necessary routine of daily toil
with heart, soul and energy. Paine's
Celery Compound is specially distin-
guished for its ability to build up run-
down systems in hot weather.

Mr. George W. Demarest, of 128
West 67th Street, New York, says:
"I am a licensed stationary engineer
and although my work is not very
laborious, I suffered so intensely with
severe pains in my back and kidneys
that I was compelled to leave my
work and remain at home for six
months. I suffered greatly with head-
aches and soreness in the chest and
lungs, and my joints became very stiff.
I actually felt I was doomed to fill an
old man's grave at the age of thirty-
two. As a last resort, I used two
bottles of Paine's Celery Compound
when I was able to resume my work,
and after using the third bottle, I am
in perfect health. The value of
Paine's Celery Compound is inestimable,
and I urge others afflicted as I
was to use it."

CERO-FRUTO

"An All-Day Food"

Wheat and Pure Fruit Combined

Until within a few years very little at-
tention was given to specially prepared foods of
high nutritive values, their use being ac-
counted except for invalids and confirmed
dyspeptics. But a change, a great change,
has taken place. The present great consump-
tion of prepared, cooked and highly nutri-
tious foods is abundant evidence that the pub-
lic is educated up to the importance of the
food question.

CERO-FRUTO contains the greatest amount
of nutrition of any of the popular prepared
foods. Its value as a food equals 100 per
cent. It heads the list. The first step in the
process of digestion is taken in its prepara-
tion, relieving the digestive apparatus from
unnecessary labor in the performance of its
proper function.

CERO-FRUTO is a pre-digested food. The
starchy element is advanced in the prelimi-
nary stage and is converted into sugar. This
process renders the assimilation easy and
prompt, preventing indigestion, flatulency,
"heartburn," flatulency and other grave dis-
orders. Each flake of the CERO-FRUTO rep-
resents the entire wheat grain, which in-
cludes the rich phosphatic elements neces-
sary for maintaining the proper condition of
the body and the health of the digestive tract.
This combination of the grain and fruit
makes CERO-FRUTO one of the most whole-
some of foods. Sold by all grocers.

Two Aged Visitors.

The Hillsboro (Ills.) News says:
"Mrs. Sarah Chambers, aged 82 years,
and Mrs. Rachael Gregory, aged 89
years, both of Irving, drove to Hills-
boro on Thursday of last week and
visited with their brother, Jacob Cress
who is 84 years of age. These three
are without doubt the oldest three
brothers and sisters in this county if
not in the state. The average of the
three is 85 years." Jacob Cress is the
father of Mrs. O. B. Blackman of this
city.

The readers of this paper will be pleased
to learn that there is at least one
dreaded disease that science has been
able to cure in all its stages and that is
Catarrh. Halle Catarrh Cure is the
only positive cure now known to the
medical fraternity. Catarrh being a
constitutional disease, requires a con-
stitutional treatment. Halle's Catarrh
Cure is taken internally, acting direct-
ly upon the blood and mucous surfaces
of the system, thereby destroying the
foundation of the disease, and giving
the patient strength to build up the
constitution and assisting nature in
doing its work. The proprietors have
so much faith in its curative powers
that they offer one hundred dollars for
any case that it fails to cure. Send for

"FORCE" FOOD CO.
Buffalo, N. Y.

I have introduced "FORCE" at my breakfast table, and must
say it is the most pleasant breakfast dish I have ever found. The
ordinary breakfast foods, while of nourishing properties, are to
me more or less unpalatable, and after their use for a week or so
I have become tired and sought a change; thus it has gone from
one food or preparation to another. I have gotten so now that I
look forward with expectancy to my breakfast, which is some-
thing I have not done in a long time, and as the "FORCE" Food
is at my plate every morning, I eat it with the greatest relish. I
don't say this as "flattery" or flattery, but it is an honest fact that I
think "FORCE" Food is the most delectable breakfast dish I have
ever tasted for its health-giving qualities. Its crispness and savory
flavor is something new and untrivial.

Yours very sincerely,
Name sent on application.

CAUTION

This is not a gentle word—but when
you think how liable you are not to
purchase for 75c the only remedy un-
iversally known and a remedy that has
had the largest sale of any medicine
for the world since 1888 for the cure
and treatment of Consumption and
Throat and Lung troubles without los-
ing its great popularity all these years
you will be thankful we called your
attention to Boschee's German Syrup.
There are so many ordinary cough
remedies made by druggists and others
that are cheap and good for light colds
perhaps; but for severe coughs, bron-
chitis, croup, and especially for con-
sumption, where there is difficult ex-
pectoration and coughing during the
nights and mornings, there is nothing
like German Syrup. Sold by all drug-
gists in the civilized world.

DON CAMERON HAS A MISHAP

Ex-U. S. Senator Thrown from a Vehicle
and Severely Hurt.

London, Aug. 5.—Ex-United States
Senator J. Don Cameron and Mrs.
Cameron were driving yesterday after-
noon from Fort William, Inverness-

J. D. CAMERON.

shire, Scotland, to Inverlochy castle,
Lochaber, which he has leased for the
summer, the horses shied and the car-
riage collided with a cart.

Both Mr. and Mrs. Cameron were
thrown out and the senator was se-
verely injured in the groin. With the
exception of shock Mrs. Cameron was
not hurt.

REPLY OF THE BEEF TRUST

Does Not Deny the Charges, but Says They
Are of No Consequence.

Chicago, Aug. 5.—The government
suit against the alleged beef trust was
sent a step forward here yesterday by
the filing in the United States circuit
court of demurrers of the defendants,
both as individuals and as corpora-
tions. The demurrers set up at consid-
erable length that the complaint on
which an injunction is asked is in-
sufficient. In specific terms the de-
murrers assert that "so much of the
bill of complaint as asks a discovery"
of the several interests of the defend-
ants and their business methods "has
not stated such a case as would entitle
the complainant to the relief prayed for."

The effect of the filing of the de-
murrers is technically to admit all the
allegations charged in the bill of com-
plaint. The argument advanced in
support of the packers' positions is
that, admitting the truth of the
charge, no sufficient ground has been
shown for the issuance of the peti-
tioned writ.

These Were Wanton Things.

Everett, Wash., Aug. 5.—Sunday
night the Great Northern east-bound
Overland train was fired upon by 5
gang near Edmunds, presumably for
the purpose of holding it up. Several
volleys were fired from the darkness,
crashing through the windows of a
Pullman sleeper and a dining car. A
cook received a slight flesh wound in
the forehead. The train was not
stopped.

Engineer Killed in a Collision.

Bozeman, Mont., Aug. 5.—An east-
bound Northern Pacific passenger
train ran into a light engine standing
on the siding at Sappington, a small
station about thirty miles from here,
derailing the engine of the passenger
and killing Fireman Deering. Engi-
neer Brown, of the light engine, was
severely injured by the explosion of a
flue.

Stones Better Than a Pistol.

Hopkinsville, Ky., Aug. 5.—In a
quarrel about a woman near Trenton,
Mose Tyler, a farm hand, advanced
with a drawn pistol on Thad Coleman.
Coleman hurled two stones at Tyler.
The first stunned him and the second
struck him on the head and killed him
instantly. The coroner's verdict ex-
onerated Coleman.

King Edward Walks Up Stairs.

Cowes, Aug. 5.—King Edward yester-
day, for the first time since his ill-
ness, walked up and down a flight of
stairs without assistance. He also en-
joyed a stroll upon the upper prome-
nade deck of the royal yacht, Em-
press Eugenie, who has arrived here
on her yacht Thistle, visited King Ed-
ward yesterday.

HOBSON A TRUE HERO.

Not less than four thousand people gathered in the auditorium of Rock River Assembly Monday afternoon to hear Captain Hobson lecture upon "The American Navy, Its Traditions and Victories," and not a one but went away with a heart swelling with pride for our country, its loyal defenders and the brave hero who so modestly addressed them in words of ringing patriotism. His very modesty in keeping himself and his exploits in the background while he lauded the courage of the early heroes of the navy marked him as a hero.

Not in action or word was there a spark of egotism or self laudation and even as Dr. Dornblaser introduced him with a graceful compliment a pained expression crossed the face of the hero who so richly deserved the compliment.

Hobson has a deep, strong, manly voice and as he stood there fired with patriotic enthusiasm and told of the glory of the past and promise of the future of our country all hearts went out to him and the enthusiasm was contagious. He made a strong plea for the building up and strengthening of navy, and while he is off duty to regain his health the navy department could not do better than let him, for a time, educate the people as he is doing by his lectures.

He talked for two hours and during this time not a dozen of the four thousand people left, and they only because rain threatened.

For a man who does not make a business of public speaking his address was remarkable. It was full of thought, capable of setting others to thinking. His points were logically presented, his words well chosen and withal he was eloquent in many of his bursts of patriotism.

It took a strong man and a man of nerve to do what Hobson did at the close of a two hour's vigorous talk in a hot auditorium. He stood in the midst of that crowd, the perspiration streaming down his face and running off his chin, the once stiffly starched collar a wet rag about his neck, and nearly ready to faint with the heat smilingly shook hands with the thousands who pressed about him grateful for his words and thankful for the opportunity to honor one who has set so noble an example of heroism. He is a man of the people. Dr. Dornblaser, seeing how he was suffering said, "You can stop any time you like." But he answered, "I am no invalid," and stooped to press the hand of a little child nearly lost in the crowd.

Nomination Papers Out.

The Laboring Voter's Committee have thirty-five nomination papers in circulation for their candidates for Minority Representative for this district. Hanlon is receiving strong support from every township in the district. The chances for success are now in his favor, it is claimed. As Mr. Hanlon's party have never voted in this district, it requires a petition to the secretary of state to authorize his name placed on the ticket this fall. It requires about 1,200 signatures to have his name placed on the ticket, but an effort will be made to get 6,000 or more, so there will be no chance for a contest, if any should be made.

Dangerous Meanness.

While Josias Millar and family were absent from their home in Reynolds township one day recently several men who were at work in an adjoining field forcibly entered the house, ate all the food that had been prepared for the family and ransacked the rooms. In the bedroom of a lady they took clothing from her wardrobe and scattered it about the room. The youngest member of this party confesses that he was with the men when they did this, and the Millar family and their neighbors are highly incensed.

SUICIDE IN ROCKFORD.

George Dufoe, Wild From Drink, Fires Two Bullets Through His Heart.

George Dufoe committed suicide Sunday evening in his room at the Kretzinger lodging house, Rockford. He had been a heavy drinker and in a moment of great suffering took his own life, shooting himself twice in the region of the heart, with a 38-calibre revolver.

A few hours before his death his mind seemed to have given way and his actions were those of a maniac. He completely terrorized the people in the lodging house and the police had been sent for to prevent his doing injury to others. Two officers were but a short distance from the house and within hearing of the fatal shots.

Mr. Dufoe's daughter May roomed in an adjoining house, but did not hear the shooting or know of her father's tragic death until Monday morning.

All Were Saved.

"For years I suffered such untold misery from bronchitis," writes J. E. Johnston of Birmingham, Ala., "that I was unable to work. When I was cured by Dr. King's New Discovery for Consumption, my wife and I were cured of Asthma, till it cured her, and all our expense goes to show it is the best Croup medicine in the world. A trial will convince you it's unrivaled for Throat and Lung disease. Guaranteed bottles 50c and \$1.00. Trial bottles free at Rowland Bros.

Look Pleasant Please.

Photograph C. C. Harlan, of Eaton, O., can do so now, though for years he couldn't, because he suffered untold agony from the worst form of indigestion. All physicians and medicine failed to help him till he tried Electric Bitters, which worked as a charm for him that he declares they are a godsend to sufferers from dyspepsia and stomach troubles. Unrivaled for diseases of the stomach, liver and kidneys, they build up and give new life to the whole system. Try them. Only 50c. Guaranteed by Rowland Bros., druggists.

Shatters All Records.

Twice in a hospital, F. A. Guldedge, Verbena, Ala., saved a vast sum of money to cure a severe case of piles, causing 24 tumors. When all failed, Bucklen's Arnica Salve cured him. Subdues inflammation, cures aches, kills pain. Best salve in the world. 25c at Rowland Bros. drug store.

Just Look at Her.

Whence came that sprightly step, faultless skin, rich, rosy complexion, smiling face. She looks good, feels good. Here's her secret. She uses Dr. King's New Life Pills. Result—All organs active, digestion good, no headaches, no chance for "blues." Try them yourself. Only 25c at Rowland Bros.

A Necessary Precaution.

Don't neglect a cold. It is worse than unpleasant. It is dangerous. By using One Minute Cough Cure you can cure it at once. Always inflammation, clears the head, soothes and strengthens the mucous membrane. Cures cough, croup, throat and lung troubles. Absolutely safe. Acts immediately. Children like it. Rowland Bros.

Consumption Threatened.

"I was troubled with a hacking cough for a year and I thought I had consumption," says C. Unger, 211 Maple St., Champaign, Ill. I tried a great many remedies and I was under the care of physicians for several months. I used one bottle of Foley's Honey and Tar. It cured me, and I have not been troubled since. Rowland Bros.

It Needs A Tonic.

These are times when your liver needs a tonic. Don't give purgatives that gripe and weaken. DeWitt's Little Early Risers expel all poison from the system and act as a tonic to the liver. W. Scott, 513 Highland ave., Milledale, Pa., says: "I have carried DeWitt's Little Early Risers with me for several years and would not be without them." Small and easy to take purely vegetable. They never gripe or distress. Rowland Bros.

Quick Relief for Asthma Sufferers.

Foley's Honey and Tar affords immediate relief to asthma sufferers in the worst stages and if taken in time will effect a cure. Rowland Bros.

His Sight Threatened.

"While plunking last month my 11-year-old boy was poisoned by some blood or plant," says W. H. Dibble of Sioux City, Ia. "He rubbed the poison off his hands into his eyes and for a while we were afraid he would lose his sight. Finally a neighbor recommended Dr. Williams' Pink Pills. The first application helped him and in a few days he was as well as ever." For skin diseases, cuts, burns, scalds, wounds, insect bites, DeWitt's Witch Hazel Salve is sure cure. Relieves piles at once. Beware of counterfeits. Rowland Bros.

LEADERS ARE ANXIOUS

Indications That the U. M. W. Officers Are Looking for a Crisis in the Strike.

NO BREAK IN THE RANKS IS NOTED

Distribution of Relief Causes Some Dissatisfaction—Prowler Shot at—Tiptable Question Settled.

Wilkesbarre, Pa., Aug. 5.—The day having passed without a resumption of mining in the strike region caused rejoicing at President Mitchell's headquarters last night. There were some fears that work might be started at the Woodward colliery of the Delaware, Lackawanna and Western company, near Plymouth, and a large number of strikers and their sympathizers were stationed in the vicinity; but when it became known for a certainty that the mine would not resume the strikers returned to their homes. At the offices of the coal companies the only information that would be given out was that when the operators got ready to resume work they would do so, but how soon that would be they would not say.

Apprehensive of a Surprise.

Those in charge at strike headquarters are apprehensive that some of the coal companies will spring a surprise some morning, and they will have a colliery in operation before the strikers know it. To prevent such a surprise the strikers are watching the collieries very closely and also the movements of all men who go in and out of the works.

Trouble Over Relief Distribution.

A dispatch from Shenandoah says: "The headquarters of the ninth district of the United Mine Workers were visited yesterday by hundreds of men asking for aid. They were accompanied by wives and children. Orders on stores for provisions were issued only to strikers in good standing in the union. A number of applicants who have worked in the mines for years tried to obtain aid, but were refused, whereupon they threatened to go to work as non-union men."

Sentries Shot at a Prowler.

"The eighth regiment had another call to arms last night. The pickets in the vicinity of the stable saw a man stealthily approaching the horses and he was commanded to stop. He probably did not see the sentry, because the instant he heard the soldier's command the prowler turned and fled down the side of the hill. Three bullets were sent after him, but he escaped. Colonel Hoffman is of the opinion that the intruder was about to make an attack on the horses by hamstringing them or otherwise injuring them so as to make the animals useless."

NO REDUCTION OF WAGES

Tiptable Men Refuse to Assist in Competing for the Standard Oil Job.

Pittsburg, Aug. 5.—The proposition made by the American Tiptable company to its employees that they accept a reduction in wages of 25 per cent. has been rejected. The vote, which has been in progress for several weeks, was tabulated yesterday with the above result. Another conference between the company and the Amalgamated association officials has been arranged for and will probably be held in New York within the next two weeks.

The proposition was thoroughly understood by the workers, it having been explained that in order to secure foreign trade amounting to about 1,500,000 boxes the general wage reduction would not be more than 3 1/2 per cent., and that production would be increased fully 10 1/2 per cent., which would increase the earnings of the workers about 12 1/2 per cent.

It is explained that while the majority of the men would work at a slight reduction in order to secure more employment, most of them are Welshmen, and they are friendly to their fellow workers across the ocean. If the proposition had been accepted the tiptable workers in Wales would be deprived of employment. This fact influenced many to vote against accepting the offer.

The American Tiptable company will now be unable to secure this large it is forced to close a number of its plants. The largest in the world, the Shenango works at New Castle, has been shut down indefinitely, and several in Indiana have closed. The two works at New Kensington are also idle. All the non-union plants of the company are in full operation.

STRIKES ARE OFF AND ON

Ironton Men Go Back, but Think of Striking Again to Help Those Still Out.

Ironton, O., Aug. 5.—The street railway yesterday was amicably settled at 1 a. m. yesterday after a conference between Secretary Joseph Bishop, of the state board of arbitration; General Attorney R. T. Vinson, of the Local company, and a committee of five strikers. An agreement was effected by the recognition of the union and the reinstatement of discharged union men who are considered honest and efficient servants.

Last night there was strong indication of a renewal of the strike in sympathy with the men on the Huntington and Ashland divisions, who are still out. It was confidently expected that the agreement reached here between the company and employees of this division only would be the basis of settlement all along the line, but it did not materialize, that company refusing either to recognize the union or reinstate the discharged men.

A labor march was held at Huntington and every laborer present voted to give the amount of one day's work for the men on the Huntington and Ashland divisions, who are still out. It was confidently expected that the agreement reached here between the company and employees of this division only would be the basis of settlement all along the line, but it did not materialize, that company refusing either to recognize the union or reinstate the discharged men.

or the line, but at Huntington there is no violence, although the cars run regularly with non-union men.

CANE FOR SENATOR MARK HANNA

Presented to Him by Street Railway Employees—His Highest Ambition.

Cleveland, O., Aug. 5.—The 700 or 800 employees of the Cleveland City Railway company, of which Senator M. A. Hanna is president, met in a downtown hall last night and presented Senator Hanna with a cane. In acknowledging the gift Senator Hanna expressed his sincere thanks to his employees for their gift and incidentally spoke on the relations that he hoped to see soon to exist between capital and labor.

He said in the course of his speech: "Manhood and integrity are the same whether they belong to a miner, a street railway man or a boss. For myself I have no higher ambition than to work for the purpose of bringing capital and labor nearer together, and to live my life in Cleveland, where I have lived for fifty-two years."

CUBA NEEDS THE MONEY

But She Must Ask Her Uncle, Samuel Before She Can Borrow.

Washington, Aug. 5.—Official news has been received from Cuba through Minister Squiers that the Cuban house of representatives has passed a bill authorizing a loan of \$35,000,000, the senate having previously passed the same bill. The money is to be used to pay the Cuban army and to help the planters, and is to be borrowed in this country.

Under the Platt amendment which was passed to more perfectly redeem the promise of the Teller resolution to make Cuba free and independent, Cuba cannot borrow this money if the United States objects, that amendment providing that "said government [Cuba] shall not assume or contract any public debt or pay or interest upon which, and to make reasonable sinking fund provision for the ultimate discharge of which, the ordinary revenues of the island of Cuba, after defraying the current expenses of the government, shall be inadequate."

Looking for a Naval Station.

Chicago, Aug. 5.—Hear Admiral H. C. Taylor, chief of the naval bureau of navigation; Commander C. M. R. Winslow, and Lieutenant H. H. Rousens, civil engineer, comprising the naval board to inspect and recommend a site on the great lakes for a naval station and training school, arrived here Sunday and yesterday started on a cruise that will include both sides of the lake, inspecting points.

Illegal Fisherman Blown to Atom.

Clinton, Ia., Aug. 5.—Arb. McDonald dropped a stick of dynamite from a boat into the Maquoketa river for the purpose of killing fish. The dynamite exploded directly under the boat and McDonald was blown to atoms. John Ralston and Peter McCabe, who were in the boat with McDonald, had narrow escapes. They will have to stand trial for violating the game laws.

The Deadly Floater Rifle.

Springfield, Ills., Aug. 5.—Albert Alberto, aged 16 years, was accidentally killed by his brother, Joe Alberto, aged 14. While the younger brother was carelessly examining a Floater rifle the weapon was discharged, the bullet entering the stomach of the older brother, resulting in death eight hours later.

Suicide of Man and Wife.

Arkansas City, Kan., Aug. 5.—The bodies of John W. Kirby and wife were found in bed yesterday and their home three miles north of Burden. Each had a bullet hole through the head, and a revolver with two empty chambers was lying on the breast of Kirby. All indications point to suicide.

Another Engagement in High Life.

Newport, R. I., Aug. 5.—The engagement of Reginald Vanderbilt and Miss Cathleen Gebhard Nelson was formally announced yesterday afternoon by cards sent out by Mrs. Cornelius Vanderbilt, mother of the young man, and Mrs. Frederick Nelson, mother of the prospective bride.

No Hope for a Hazer.

Washington, Aug. 5.—President Roosevelt yesterday returned the papers in the case of Alexander G. Pendleton, Jr., to the war department with an endorsement confirming the sentence of dismissal. Pendleton was a first class cadet at West Point, and was found guilty of hazing.

Says He Had to Shoot.

Manfordsville, Ky., Aug. 5.—R. L. Johns, a prominent merchant of Welsh, this county, shot and killed his uncle-in-law, James Henry Sharp. Johns claims that Sharp threatened to kill him and that he was forced to shoot in self-defense. He has surrendered to the authorities.

Test at Warship Building.

Washington, Aug. 5.—The naval board of construction has passed upon the contract and advertisement for the new battleship Louisiana, which is to be built by contract at the same time that a similar ship is to be built in a navy yard. The bids are to be opened Oct. 1.

House of Commons Gets Busy.

London, Aug. 5.—The house of commons sat until 3 o'clock this morning passing estimates amounting to millions of pounds by the now familiar end-of-the-session "guillotine" process, but without the scenes which usually accompany wholesale clotting.

Reichlin Makes His Shortage Good.

Washington, Aug. 5.—Henry Reichlin, late disbursing officer of the department of justice, has deposited with the United States treasury a certified check for \$7,601.52, the amount of the shortage in his account recently.

Soo Tonnage Is a Record.

Detroit, Aug. 5.—The tonnage of the Soo ship canals for the month of July exceeded all previous records, aggregating 5,682,328 tons, of which 4,558,462 tons passed through the United States locks.

Town Is a Thousand Years Old.

Burlington, Aug. 5.—The quaint old Wurttemberg city of Ravensburg has just celebrated the one thousandth anniversary of its founding by a historical procession.

DESPERADO HYATT FREE

Supplied from Outside with Dynamite and Guns—Sixteen Things Escape.

Nashville, Tenn., Aug. 5.—Armed with dynamite to blow his way out of prison, Gus Hyatt, the train robber and desperado, last night led a desperate gang of sixteen convicts to liberty from the Tennessee penitentiary. Fifteen of the escaping party got entirely clear of the premises, but one, Ed Carney, a safe blower, paid the penalty of a death in the bold undertaking. The dynamite was laid by Joe Loss and James Work were traced down by bloodhounds and captured, but the rest of the prisoners had gotten so far out of bounds that by midnight no trace of them could be had.

The prisoners were evidently furnished dynamite from the outside, which they used in blowing out an opening in the main wing of the prison. Hyatt stood off the inside guard with a brace of revolvers, which had also been furnished him from the outside, while the men preceded him to liberty. The dynamite was laid by Joe Loss and James Work were traced down by bloodhounds and captured, but the rest of the prisoners had gotten so far out of bounds that by midnight no trace of them could be had.

WHITECAPS IN KENTUCKY

Brutes With a Man Almost to Shreds With a "Blacksnake."

Owensboro, Ky., Aug. 5.—William Dodwell, a farmer living near Lexington, this county, was taken from his home at midnight Sunday, bound to a tree and beaten with a blacksnake whip until he was almost unconscious from loss of blood. Over seventy-five lashes were administered, and there are more than fifty wounds from two inches to a foot long on his face and body.

The bark was worn from the tree where the ropes which bound the unfortunate man touched it, and the whip left marks on the tree as if it had been cut with a knife. Dodwell's wife and daughter attempted to get to his rescue but were prevented by the members of the mob. The cause for the whipping is not known.

Records of the Ball Clubs.

Chicago, Aug. 5.—Following are the scores made yesterday at base ball by the expert aggregators:

CENSURE FOR TAYLOR

Editor Disapproves of Remarks Made by One of Our Rear Admirals.

UNCLE SAM WARNED TO BE READY

Five Years from Now, When There Is To Be a Test of the Monroe Doctrine.

Berlin, Aug. 5.—The utterances attributed to Rear Admiral Taylor, of the United States navy, as to a probable conflict between Germany and the United States in 1907, was printed conspicuously here. The Tageblatt says it requires all the wrongheadedness of a jingo, combined with complete ignorance of European affairs, to imagine that Germany intends to annex the Netherlands. The Tageblatt continues, "What Rear Admiral Taylor said."

REAR ADMIRAL HENRY C. TAYLOR.

He that Germany intends to annex the Netherlands. The Tageblatt continues, "What Rear Admiral Taylor said."

In a recent dispatch from the United States Rear Admiral Taylor, chief of the bureau of navigation at Washington, was credited with having given expression to the ideas referred to in the foregoing. In this dispatch Rear Admiral Taylor was described as thoroughly alive to the steady set of a current which is carrying the United States and Germany along converging lines in many parts of the globe and bringing these two nations into closer rivalry elsewhere.

Fixed the Time of a Crisis.

To Rear Admiral Taylor was given the credit of warning the leaders of the United States navy and army that preparations must begin at once and be vigorously prosecuted from this time forth for a grave crisis in German-American relations in the spring of 1907. The time of this crisis is fixed coincident with the most efficient sea power Germany now contemplates. Will Test the Monroe Doctrine.

It will, the rear admiral thinks, also be the time when the Panama canal will be occupying much attention in this country, when the Cuban republic may have about reached the end of its tether, when Jamaica and other West Indian islands will be prostrate in bankruptcy, when the Netherlands—according to Admiral Taylor's predictions—will have been absorbed by Germany, leaving Curacao and the other Dutch islands of the Caribbean sea as bones of contention to force a supreme test of the Monroe doctrine.

And Now It Is All Out.

Chicago, Aug. 5.—Rear Admiral Taylor denies the story that he believes that the United States and Germany may go to war in 1907. When asked if he had set a date for a conflict between the two countries he said: "Such assertions as have been credited to me are without foundation other than that I have said our sectional defenses should be well protected against attack by any European power. All naval officers are of this opinion. It would be ridiculous for me to predict a war with any nation."

KAISER THINKS FOR DISARMAMENT

Says He Notes Germany's Great Military Force a Paying Investment.

Berlin, Aug. 5.—The king of Italy's proposal for a contraction of European armaments is a subject on which the czar and the German emperor undoubtedly will converse at their meeting at Reval on the occasion of the Russian naval maneuvers. Emperor William almost certainly will give the suggestion no encouragement. His opinion, well known to diplomats, is that disarmament is a dream of the future, and a fantastic idea when considered in connection with the existing continental situation.

"Germany cannot consent to impair her finest instrument of offense, which is the defense of her existence," he is quoted as saying, "because other nations are unable to equal it. We can stand the expense, and, besides, I consider that the army returns to the nation all that it costs in discipline of character and wholesome training of the boy."

Opinion here does not regard the meeting of the emperors as of large importance, though it cannot be called a mere visit of kinsmen, for the reason that the chancellor, Count von Buelow, and Count Lamsdorff, the Russian minister of foreign affairs, accompany their respective sovereigns.

Still Fighting in Hayti.

Think What it Means TO THE THOUSANDS SUFFERING FROM

Dyspepsia, Liver and Kidney Troubles, Impoverished Blood and General Exhaustion.

During the last year thousands of Americans have looked to Germany to avail themselves of the wonderful curative powers of the famed

Traubenkur or Grape Cure

The fame of these cures for such diseases is world wide and the astonishing results have been recognized by physicians the world over. There can be no doubt or no quibbling. The grape cures have been restored to health many thousands of Americans. Their absolute worth is no longer questioned, but only a few can afford the time and expense of a visit to the Traubenkur. It has remained for an American Chemical Co. in the Lightning Medicine Co. of Rock Island, to combine all the best elements of the Traubenkur in

MULL'S GRAPE TONIC

and it has now been placed on general sale throughout America in drug stores at only 50c per bottle so the suffering of all classes have the benefit of these great curative agents.

Think what it means to you if you are suffering from any of these troubles. It is the most important development in a medical way in America for a decade.

WORTH ITS WEIGHT IN GOLD.

LOUIS ROBERT LAWRENCE, Neb. says: "I have been afflicted with stomach trouble for the past three years. At times it grew so severe and annoying that I was compelled to quit work for two or three days each week when the pains in my stomach were beyond endurance. I took but three bottles and am today perfectly well. I used nothing else but Mull's if you are suffering from dyspepsia, constipation, liver or kidney trouble or nervous exhaustion you owe it to yourself to give Mull's Grape Tonic a trial. The cost is small and you will be astounded and gratified with the results. Our faith in it is so absolute that those who buy it and get no benefit may have their money back."

If Used With a Little Cold Cream It will be Found a Delicious Drink.

STOPS IT LARGELY FOR AN HOUR

City Dads Return Laden with Knowledge—Ruins of a Prehistoric Fort.

Chicago, Aug. 5.—The Lake Street Elevated was put out of commission for nearly an hour and the surface lines abandoned for the night by the collision of the Western Transit Line boat Yonkers with the west abutment of the Lake street bridge. The steamer ground her steel stem several inches into the stone, and lifted the entire mass and set it down several inches away, twisting the rails of the Lake Street Elevated and the surface lines far out of place. The accident was caused by the strong current in the river, the Yonkers being without a tug. Vessel men expect that as a result of the accident the harbor master will require heavy boats to have tugs in the Chicago river hereafter.

Line Believes in Economy.
"This line has fifteen ships," the harbor master said. "The master of the Yonkers, Captain Folan, told me their ships have orders dating two years back not to use tugs except when absolutely necessary. Nearly half of the accidents along the river are caused by this concern. We cannot compel the use of tugs by ships until the ships become obstructions."

Came Back Full of Information.
Chicago, Aug. 5.—Chicago's aldermanic delegation, which has been the target for the funny writers of the New York and Boston press, has returned home. The aldermen's real mission was to inspect the transportation facilities of the eastern cities, and they say they have collected information which will be of great value in solving the Chicago street railway problem. That Chicago needs an improved transportation system was brought home to the city fathers five minutes after they arrived at the station. They were obliged to wait some time before a car have insight to carry them down town.

Student Went with Baldwin.
Chicago, Aug. 5.—A local flavor is given to the story of the reported return of the Baldwin-Zeigler expedition when it is recalled that one of the volunteers for duty in the Arctic trip was Athlete Ledingwell, one of Coach Stagg's foot ball players. The University of Chicago boy sought this trip as a means of extending his researches in scientific lines and observations of polar fauna and flora.

RUINS OF A PREHISTORIC FORT.
Choice Lot of Mounds Discovered in a Cultivated Field.

Rondabale, Ills., Aug. 5.—The ruins of an old fort, probably built by a prehistoric race, has recently been discovered in the northwestern part of this county by John Criley, who is a student of ancient history and scientific subjects. The breastworks are situated at the break in the bluffs where a small stream runs into the Mississippi bottoms. The breastworks are extensive, consisting of mounds and a circular line of works similar to modern defensive breastworks.

The field in which they have been discovered has been under cultivation for sixty years. On top of the line is a series of mounds at intervals of 150 to 600 feet apart, there being seven in all. The line is 3,339 feet long. These mounds have never been opened. The country surrounding these old fortifications has been marked in a peculiar manner. Queer and mysterious signs are to be seen carved in trees and on stones. Some of these characters are in the shape of compasses, reptiles, animals and human beings.

Went West Only to Die.
Springfield, Ills., Aug. 5.—News has been received in this city by Mrs. H. A. Kummel of the death at Phoenix, A. T., of her brother Lawrence H. Hamilton, of consumption. He leaves a wife and an eight-months-old daughter. From 1895 to 1900 he was a reporter on The Evening News, of Springfield, but failing health caused him to resign and he went to Phoenix. His parents, Mr. and Mrs. M. H. Hamilton, reside in Bloomington.

Two Killed at a Crossing.
Shelbyville, Ills., Aug. 5.—W. E. Hilligass, aged 19, and Miss Mabel Strong, aged 18, both of Mattoon, were driving across the Big Four tracks at Shelbyville when a passenger train struck their buggy. Both were thrown several feet. Hilligass being instantly killed, and Miss Strong dying after being taken to the station on the train. Both were prominent young people.

State Fish Commission Moves.
Peoria, Ills., Aug. 5.—The Illinois fish commission has leased a piece of the river front at the foot of Fulton street from the city for a period of five years, and will erect a large retaining tank for the preservation of young fish. The headquarters of the commission have been removed from Quincy to this city.

Kidnaped Girl Home Again.
Paris, Ills., Aug. 5.—Deputy Sheriff Robert Smith has returned from Billings, Mont., with 12-year-old Edie Carnes, who was kidnaped from this city by her sister, Mrs. Edna Hall. Mrs. Hall was told that if she objected she would be brought to Illinois and prosecuted.

Fatally Hurt by a Base Ball.
Taylorville, Ills., Aug. 5.—William Clotfelter, a member of the local ball team, sustained a fracture of the skull in a game with the St. Louis Pastimes by being struck in the back of the head with a ball thrown by Pitcher Weyth, of the Pastimes.

Young Woman Drowned.
McHenry, Ills., Aug. 5.—Miss Christina Weber, daughter of Mr. and Mrs. Matt Weber, was drowned while bathing in Fox river near this village.

THROWING THE LASSO.

The Manner in Which the Rope Is Handled by an Expert.

"A mistaken impression prevails in the mind of the public in regard to the manner in which a lasso is handled," says an expert. "The idea that the loop is always swung around the head before making a cast, especially when the roper is on foot, is erroneous. No man of experience ever makes a cast in this fashion from the ground in practical work. There are several reasons why he does not. One of them is that the movement is likely to frighten the stock, especially horses; another that he may have to wait some minutes before a favorable opportunity occurs for making a cast. He knows that better results are obtained by holding the rope as unobtrusively as possible, even keeping it concealed from the object of capture.

"On the contrary, however, when mounted and in pursuit it is absolutely necessary to swing the loop over and around the head, for the cast must be made with the greatest possible force in order to overcome not only the forward movement of the pursued, but also the action of the wind should that chance to be against you.

"As to the manner of casting, some 'ropers' cast with a quick, jerky movement of the hand, seeming to use the arm very little and the body not at all. Others employ body, arm and hand. Both methods are effective when perfected by practice."

Board with the Better.

To avoid the trouble of housekeeping, many wealthy Parisians board with their butler, so to speak. Instead of ordering the food for the household from day to day, they pay a fixed sum per month to their butler or housekeeper, who contracts to supply them with the usual three meals per day, composed of the customary courses, says What to Eat. The price paid for this service varies in accordance with the style of living. If guests be invited to dinner or any sort of entertainment be given, an extra sum per head is paid. In this way the lady of the house avoids the annoyance of butchers' and bakers' bills, and if the butler does not keep his part of the contract it is easy enough to find another to replace him. Of course, the president's household is carried out on this plan on a large scale, and many of the big stores supply all their employees with daily meals in the same manner. The banks and other administrations of similar nature often furnish the noonday meal to their clerks by contract, the latter paying a trifling sum toward the cost.

The Manufacture of Pins.

In 1775 a prize was given to the colonist of Carolina who produced the first native pins and needles. During the war of 1812, when, owing to restrictions upon commerce, the price of pins rose to the enormous sum of \$1 per paper, the manufacture was actually started in the United States, but does not seem to have met with success, as the enterprise was soon abandoned. The industry was not fairly started in this country until the year 1830.

The early pins in this country, as in England, were made with globular heads of fine twisted wire, made separately, and secured to the shank by compression from a falling block and die. These old pins had the misfortune of often parting with their heads. It was to overcome this difficulty that the attention of early inventors was directed. The solid headed pin, in common use today, took the place of the old form about 1840.

Couldn't "Kid" Him.

"Have you known what it is to be an orphan?" asks one of the characters in the "Pirates of Penzance," and another replies, "Often." The similarity between the two words causes almost a page of good Gilbertian fun. It would have been otherwise if either of the characters had happened to be an average London boy.

The tale is told of a London boy on his country holiday who was asked by a carter to hold one of his horses. "Which 'orse?" asked the lad. "The off 'un," said the driver. "Horpahn," said the boy. "How d'ye think Hi knows which of 'em's a horpahn? Garn, you don't kid me." And that closed the incident.—London News.

Out of Proportion.

Benham—I try to believe the Bible, but I find that story of the ten virgins, five of whom were wise and five foolish, a little perplexing.

Mrs. Benham—What's the matter with that?

Benham—Judging from the women I have known, the proportion of foolish ones was altogether too small.—New York Times.

As If It Were Possible.

Charibel—I wonder what that creature meant?

Laurie—What creature?

Charibel—Why, Tentworth, of course. When I told him everybody said I was improving in my singing, he said he was delighted to hear it. The ideal—Stray Stories.

Her Protest.

"Darling," said Edwin, "your eyes are like diamonds, your teeth like pearls, your lips resemble the most glorious rubies, and your hair"—

"Edwin," said Angelina sternly, "remember that you work in a jewelry warehouse and that it's disgusting to talk shop."

Election Promises.

Successful Candidate—I shan't forget the promises in virtue of which I have been elected.

Political Manager—That's right. Bear them in mind. With a little brushing up, they'll probably elect you again.—Puck.

VOLCANES.

Some Facts About These Vents to the Earth's Interior Fire.

Eons ago the earth on which we live was a huge mass of "fire mist." Astronomy tells us that today in the heavens we can see vast nebulae, suggesting what the earth was once. Gradually the surface of the "fire mist" cooled and hardened, but the interior is still intensely hot. Whether it is solid, liquid or viscous we do not know. This heat, raging miles below the surface, at times escapes through the hard crust by vents or volcanoes.

There are from 300 to 350 volcanoes on the globe. This estimate includes merely five volcanoes which within recent times have been in action. If we should count the many mountains scattered over the earth which show today signs of volcanic action in more remote past, the estimate would have to be increased by many hundreds.

Volcanoes would seem to be arranged with more or less symmetry in belts circling the great oceans. A ring of fire surrounds the Pacific. Starting at the South Shetland islands, several hundred miles south of Cape Horn, a belt of volcanoes extends up the west coast of South America, Central America and North America; from Alaska it crosses the Pacific along the Aleutian islands to Kamchatka; thence it follows the east edge of the Pacific through the Kurile islands, Japan, Formosa, the Philippines, the Molcaes, the Solomon islands, the North Hebrides, New Zealand and finally ends in Mounts Terror and Erebus, on the Antarctic continent.—Geographic Magazine.

Economical.

A young man living on Walnut Hills is a close worker in money matters—that is, he stays close to the shore with his expenditures. He had the good luck to marry a girl whose parents are quite wealthy and is at present living with his wife in one of his father-in-law's houses.

One day not long since while discussing affairs with a friend the latter asked:

"Did the old gentleman give you that house?"

"Well—er—no, not exactly," was the answer. "He offered it to me, but I wouldn't accept it."

"How's that?" asked the friend.

"Well," answered the man who had made the lucky matrimonial venture, "you see, the house really belongs to me. I'm living in it, rent free, and I'll get it when the old man dies. If I accepted it now, I'd have to pay the taxes."—Cincinnati Enquirer.

Sleepwalking.

"Ten per cent of the world's population is more or less somnambulist," said a physician, according to the Philadelphia Record, "and every one, at one time or another, has done a little sleepwalking. I myself when a lad got up, dressed, took my books and went to school on a summer night, my father following close behind to see that I should come to no harm."

"Blond persons are more apt to be somnambulist than dark folk, and in cold climates there is more somnambulism than in warm ones. In certain Greenland villages, I have been told, the hut doors are locked from without by a watchman in order that those within may not come forth in their sleep and maybe freeze to death, but in Egypt and such like hot lands such precaution is unnecessary."

Her Brand.

A correspondent writes: "Two women were strong supporters of a local co-operative store, but one day as one of them was passing down the street she was surprised to see her friend coming out of a licensed grocer's shop. 'I thought, Mrs. Brown, you was a member of the Co.' was her remark. 'So I am; but, due ye ken this, there's nae shop in Glasgow I get sic nice beef ham as in here.'"

"Some days later Mrs. Brown's friend went into this shop to buy a sample of the beef ham. On entering the shop she asked the man if he would give her a pun' of the beef ham Mrs. Brown gets here! A quiet smile stole over the shopman's face. 'Oh, yes,' he said; 'I can oblige you. Hly you brocht a bottle wif you?'—Glasgow Times.

Making History.

While we read history we make history. Every great crisis of human history is a pass of Thermopylae, and there is always a Leonidas and his 300 to die in it if they cannot conquer. And so long as liberty has one martyr, so long as one drop of blood is poured out for her, so long from that bloody sweat of the agony of humanity shall spring hopes as countless as the forest leaves and mighty as the sea.—George William Curtis.

A Bee Line.

The directness of the bee's flight is proverbial. The shortest distance between any two given points is called a bee line. Many observers think that the immense eyes with which the insect is furnished greatly assist it in not being entirely accurate for the accuracy of its passage through the air.

Hadn't Heard It.

"Money talks," asserted Glimmer. "I haven't so sure of that," retorted Throckmorton. "It is not on speaking terms with me!"—Detroit Free Press.

Liked the Old Way Best.

"Bridget," asked Mrs. De Leon, "can you cook on scientific principles?"

"Sure, ma'am, what's the matter with cookin' on a range?" asked sensible Bridget.

A DANGEROUS TRAITOR.

The Result of Pechantre's Plot to Kill the King.

Probably no well measured poet was ever more taken by surprise than was M. Pechantre, a gentle and mild mannered French dramatist of the seventeenth century, who was one day arrested for high treason as he was peacefully eating his dinner at a village inn.

The landlord of the inn where he was in the habit of dining discovered on a table a piece of paper on which were written some unintelligible phrases and below in a plain, bold hand, "Here I will kill the king."

The landlord consulted with the chief of police. Clearly this clue to a conspiracy ought to be followed up. The person who had left the paper had already been remarked for his absent air and gleaming eye. That man was Pechantre.

The chief of police instructed the landlord to send for him the next time the conspirator came to dinner.

When Pechantre was shown the evidence of his guilt, he forgot the awful charge against him and exclaimed:

"Well, I am glad to see that paper. I have looked everywhere for it. It is part of a tragedy I am writing. It is the climax of my best scene, where Nero is to be killed. It comes in here. Let me read it to you." And he took a thick manuscript from his pocket.

"Monsieur, you may finish your dinner and your tragedy in peace," said the chief of police, and he beat a hasty retreat.

Scarabæus, Egypt's Sacred Beetle.

Scarabæus, "the god beetle of the lower Nile," has been worshipped, petted and feared by several beighted sects of Egypt since the time "when the mind and history of man runneth not to the contrary." Like the other sacred creatures of idolatrous countries, several mythical fancies are woven around this entomological rarity.

The number of its toes, thirty, were supposed to symbolize the average number of days in a month. On each new moon day it deposited a ball containing 360 eggs, which the Egyptian priests assured their followers referred to the number of days in the year, the brilliant golden color of the ball itself personifying the sun. In ancient times this curious beetle was declared to be of but one sex, the male, but modern investigation has exploded that one myth at least.

In connection with the Egyptian nations the Gnostics as well as some of the early Christian fathers speak of Christ as the scarabæus and symbolize him as a man with a beetle's head. The Egyptians always embalmed this sacred insect.

Two Sickroom Warnings.

In a recent lecture on first aid to the injured the speaker emphasized two cautions that are so commonly disregarded as to be well worth repeating in print. The first is, never rub a person with liniment that has been put on a flannel cloth, for the roughness of the flannel and the friction on the skin, with the penetrating ingredients of the liniment, will easily make an abrasion of the skin, producing a condition that may take weeks to heal. The second warning is that in any condition of unconsciousness the hot object applied, bag, bottle, brick or whatever it may be, must be wrapped in flannel or cloth before it is brought into contact with the flesh of the person to be treated. A severe burn is often made by a thoughtless attendant who puts a too hot water bottle next to the skin while the patient is unconscious or unable to move away.

Teaching a Parrot.

"There are two ways," said a bird dealer, "of teaching a parrot to talk. One way is to put him in a darkened room, to sit in a corner and to repeat over and over again the word you want him to acquire. A clever parrot will learn a word or a phrase after some 400 or 500 repetitions, while for some it takes a week or more. You must keep still in the room. No sounds from within or without the house save your voice, monotonously repeating the phrase to be acquired, must reach the parrot's ear. Some people teach their birds in a well lighted room, speaking from a place of concealment in a closet or behind a door. This method is not so good, because in the light the parrot's attention is distracted."

One of O'Connell's "Bulls."

Some extremely amusing mistakes have been made by even the most practiced speakers in their desire to carry their audience with them. O'Connell once in an election speech in Conciliation hall told his followers that if measures injurious to Ireland were brought into parliament he would go over to England and "die on the floor of the house of commons in opposition to them," and when he came back he would say, "Are you for repeal now?"—London Standard.

Palestine Violin.

The rebab of Palestine is a sort of violin. The body is a square frame covered with parchment. The instrument is played with a bow. There is but one string, a thick, coarse horse-hair, but expert performers can, it is said, get considerable variety of tone from this primitive instrument.

High Explosives.

"Tommy," said the schoolteacher to Tommy Taddels, "what do you understand by the term 'high explosives'?"

"Sky rockets, ma'am," replied Tommy.—Judge.

If the average man were as good as he thinks other men ought to be, it wouldn't be long until his vanity made him topheavy.—New York Press.

The Right Man.

In this day of "fake" physicians healers, phenomenons, self styled specialists and worthless nostrums, it is refreshing to find a physician not only skilled but honest in the practice of his profession. Dr. Prettyman the eminent specialist, who has been coming here for over eight years, every month, is such a physician. Each time he comes he is visited by many sufferers, who have gone from one physician to another, blinded by false hopes and literally robbed of their money. With Dr. Prettyman it is different. Each case is carefully examined and taken or rejected on its merits. The result is that all who come in contact with him are delighted, even those who cannot be helped are unstinted in their praise. Consult him free at Nachusa Hotel, Thursday, Aug. 7.

—Jas. F. Daley has completed improvements around his Water street building with a cement sidewalk.

—Mrs. Pettit of Ottawa advertises the loss of a Daughters of the American Revolution pin, lost on the way to or at the Assembly, and asks that the finder please leave it with Dr. H. E. Garrison.

Plymouth Clothing and Shoe House

Great August Clearance Sale

Hot Weather Wearing Apparel at Greatly Reduced Prices. The rainy weather of the past few weeks has somewhat retarded business, consequently our stock in every department are very much larger than they should be at this time of the year. Extraordinary bargains in Clothing, Shoes and Furnishing Goods is expressing it mildly. We must make a quick clearance. Therefore we have reduced the prices on all Spring and Summer Goods regardless of cost, profit or former selling prices. This is an opportunity you should not fail to take advantage of as the savings represented on every purchase during this sale is of no small consequence.

Men's Clothing

Our Men's Spring and Summer Suits. Stock is much larger than it should be at this time of the year. We must get it reduced in the quickest possible time. Stock taking time with us is almost here and we would much prefer to invoice the money than the suits. Therefore if you are contemplating the purchase of a spring and summer suit, now is the time and here is the place where you can without a doubt save the most money. Every Men's Suit in our House, None Reserved, that sold earlier in the season at 12.50, 13.50 and \$15 now in the July Clearing Sale

The Suits in this sale at the above price \$8.95 must be seen to be appreciated as printers ink can not do them justice. We would kindly call your attention to the fact that it would be impossible for us to display a sample of all the suits on sale in our show window. But we will have as many suits in our window as it is possible to display them to a good advantage. We kindly solicit inspection by the most critical skeptical and prudent buyer as never have such good suits as these been offered at such low prices as this.
